Executive DirectorMichael B. Long
Division Director**RE: Lyons Quarry, Technical Revision Approval, Permit No. M-1977-208, Revision No. TR-1**

Dear Lohr:

On January 31, 2000 the Division of Minerals and Geology approved the Technical Revision application submitted to the Division on December 1, 1999, addressing the following:

Place a 7 acre, 2' thick interim cap on the CKD disposal site at regular intervals, before the CKD reaches 20' deep. Monitoring is required biannually, with standards to be set in June, 2001.

The terms of the Technical Revision No. 1 approved by the Division are hereby incorporated into Permit No. M-1977-208. All other conditions and requirements of Permit No. M-1977-208 remain in full force and effect.

The estimated liability amount of \$44,000.00 for the Lyons Quarry, when added to the existing liability amount of \$325,100.00, exceeds the performance bond held. If you have not already done so, please submit additional bond in the amount of \$369,100.00. The attached cost estimate outlines the current costs of the additional reclamation work. The revision will not be final until the bond is approved by the Division.

If you have any questions, please contact me.

Sincerely,

Christina L. Kamnikar ✓
