Re: Approval of Fugitive Dust Control Plan For Baghouse Dust Disposal

Dear Mr. Mossberg:

I have reviewed and discussed your fugitive dust control plan and the amendment dated May 27, 1998 with Mr. Bob Jorgenson of the Colorado Department of Public Health & the Environment. Both Boulder County Health Department and Mr. Jorgenson concur that the plan outlined in your letter of May 21 and the amendment dated May 27 adequately addresses the activities related to the "old quarry" area.

You reference testing the system to determine the frequency of watering. Please submit that information to Boulder County Health Department as soon as the system is operating. We will consider your plan effective June 1, 1998.

Should your fugitive dust control plan prove to be inadequate, you will be required to re-submit an amendment to the plan addressing how you will ensure control of dust on the property.

If you have any questions, please feel free to call me at (303) 441-1182.

Sincerely,

Jeffrey J. Zayach
