1313 Sherman Street, Room 215
Denver, Colorado 80203-2273

Dear Ms. Kamnikar,

The Watchdogs thank you for the excellent inspection report on Pit C at Southdown Corporation. Ever since we read the EPA's report to Congress on Cement Kiln Dust, many residents have been deeply concerned about the potential adverse effects of this substance on our water resources. Our fears were heightened when we read about Southdown's plant in Fairborn, Ohio that was supposedly leaching heavy metals into a tributary of the Mad River. It is gratifying to know that Southdown's CKD disposal plan in Boulder County will be monitored closely and appropriately.

Please send us a copy of the ruling or disposition of the issues that are addressed in the last two paragraphs of your report when available.

Thanks again.

Sincerely,

Richard Cargill
