RE: Spray Tower Blasting Report
 Title V Operating Permit 95OPBO082
 CEMEX Lyons Cement Plant
 Facility AIRS ID - CO 0130003
 Permit Section II, Condition 10.5
 Reporting Period: July 1, 2023 to December 31, 2023

Dear David Huber:

For the period July 1, 2023 to December 31, 2023, this facility did not use dynamite to clean the spray tower. Thus, monitoring and recordkeeping requirements outlined in Part II, Condition 10.9.6 of Title V Operating Permit 95OPBO082 do not apply during the period. Please note that CEMEX Lyons does not intend to use dynamite for the stated purpose in the future cleanup of the spray tower.

In fulfillment of the Operating Permit requirement of Section IV, General Permit Condition 2a, I certify that the information contained in this submission is true, accurate and complete.

Please contact Natalie Thompson, Environmental Manager, at 708-571-9148 for questions about this submittal.

Sincerely,

A handwritten signature in blue ink, appearing to read "Erasmo Erik Estrada Tovar".

Erasmo Erik Estrada Tovar
Plant Manager
