BOULDER, COLORADO 80302

APPLICATION FOR APPROVAL OF LOCATION
for
SEPTIC TANK SYSTEMS

Applicant: Martin Marietta Corporation (Rocky Mountain Cement Company)

Mailing Address 1111 South Colorado Blvd., Denver, Colorado

Action Taken:

A. Boulder County Board of Health: Meeting September 7, 1967, 2:00 P.M.

Rocky Mountain Cement Company (Division of Martin Marietta Corporation) with Kaiser Engineers of Oakland, California, designing the sewage system. Three alternates were presented to the Board of Health in writing. Mrs. Bly Curtis, Board Member, moved to accept the site approval of Alternate Plan No. 1, which reads: "The Utility Department of the City of Longmont, together with adjacent communities, are presently considering extending a sewage system to include the City of Lyons. The proposed route for the new trunk would run to the north of the plant site, adjacent to the line of Colorado 66 Road - St. Vrain Creek - C. B. and Q. Railway. Should this scheme be approved and construction be completed before the cement plant start-up date in early 1969, Martin Marietta Corporation could request permission of the new sanitary district to discharge plant sewage into this trunk. If this scheme is approved, it would be necessary to pump the sewage a distance of about one mile, with pipeline running within the plant site property boundaries until reaching St. Vrain Creek." and a portion of Alternate No. 2 to read as follows: "Should the scheme for a new trunk be approved by the City Authorities concerned, but construction not be completed by plant start-up, a temporary rented package treatment unit could be located on the plant property close to St. Vrain Creek, so that the plant sewer pipe could be readily extended to the new trunk when installed". Approval for a temporary septic system will be required by the Board of Health. Seconded by Mr. Smith, Board Member, and carried.

B. Boulder County Planning Commission:

Action was taken through the Boulder County Planner. Approved this area as being properly zoned and that the proposed use is in accordance with correct zoning, and the approval is subject to compliance with Health Department Regulations.

C. Boulder County Board of Commissioners, September 7, 1967, 4:45 P.M.

Moved by Commissioner Murphy, seconded by Commissioner Smith, that approval be granted based upon compliance with Health Department recommendations and requirements. Carried.

RECEIVED

March 28, 1968

MEMO

TO: Mr. Bill Paddock

FROM: Robert A. Palmer

SUBJECT: Rocky Mountain Cement Company

On February 2, 1968, Flatirons Paving Company of Boulder, Colorado, signed a performance bond for work to be done on the site for the plant. This includes a lake and extracting of gravel to be used in the construction of the plant. On February 7 Flatirons Paving Company moved in equipment and started digging canals and excavating for the lake and stockpiling gravel to be used in the plant. Well over $50,000.00 has been spent on preparing the site for the buildings, etc.

All facts and figures above can be verified by Mr. Harold Short of Flatiron Paving Company. Peter Kiewit & Sons Co. of St. Louis, Mo., are the general contractor.
