MEMORANDUM

To Martin Marietta Date May 29, 1979

From Ed Tepe, Acting Chief Building Inspector

Subject: Inspections

Pursuant to the Uniform Building Code, the Chief Building Inspector has the ability to require that an application of this nature should have special inspections done due to the fact the county inspectors are not trained in this area of construction.

For this reason, you will have to have special inspections done and these inspections certified when complete to the Chief Building Inspector.

BOULDER COUNTY
BUILDING DEPT.

Boulder County Building Department
P. O. Box 471
Boulder, Colorado 80306

SUBJECT: Building Permit - Kiln Modification

Gentlemen:

Attached is our application for a building permit which covers modifying the kiln burning procedures.

In reference to your letter, dated March 7, 1977, from Mr. Robert J. Bando on violation of kiln stack opacity readings, we plan to begin construction sometime the first part of June, 1979 and complete construction in January 1980.

Attached are three drawings (two copies of each), as follows:

(1) 00-2-G
(2) 3508, Sheet 1 of 2
(3) 3508, Sheet 2 of 2

Drawing No. 00-2-G is a plot plan of the plant showing our present process.

Drawings No. 3508, Sheet 1 of 2 and Sheet 2 of 2, shows the proposed arrangements of the clinker cooler and kiln preheater tower.

If you require any further information, please let us know.

Very truly yours,

MARTIN MARIETTA CEMENT
