Mined Land Reclmation Board

Attention: Jim Schmeiding
Reclamation Specialist

Dear Jim:

The Boulder County Zoning Division contacted Quarry Superintendent Marv Berg of the Martin Marietta Cement Western Division, southeast of Lyons, Colorado on 30 January 1981 to determine that the perimeter open mining ongoing along the south Martin Marietta Cement property line is thirteen (13) years ahead of phase. Mr. Berg indicated that this revision was necessary to save the future high fuel costs by delaying close-in mining until later years. Perimeter off-site development was also described as being better buffered by immediate reclamation protections in this area.

To confirm the above and complete the Boulder County files, please forward the July 1980 correspondence from the Mined Land Reclamation Board to Martin Marietta Cement, plus any specific operational detail to support the revision approval.

Sincerely,

Thomas J. LeMire
Zoning Administrator
