Dale (or Martin),

Happy New Year!

I was hoping you could provide an update on the Zoning investigation and when you expect to reach a determination? I receive messages like the screenshot below regularly, and it would be great to provide the community an update.

Thanks so much,
Bart

don't know what's going on at CMX. It's louder than it has ever been. The truck traffic is horrendous. Heavy trucks going by at 4 AM waking everybody up. noise on the plant coming through the walls of my home every evening. What's the status of the situation?
