Dear Mr. Berry:

As a follow-up to the letter which I sent to you on April 1, 1986, enclosed is a copy of the letter, dated April 11, which we received from Southwestern Portland Cement in response to our original letter of concern regarding the effects of the blasting.

We have had no further contact with them, but have noticed no further blasting with the magnitude we experienced during 1985. Therefore, we assume that we may have the matter resolved.

We felt, however, that we should keep you informed regarding any developments in this.

Sincerely,

E. A. Pfannenstiel
President
