RE: CEMEX Inc., Larimer Quarry, Permit No. M-1977-341
Citizen Complaint Inspection

Dear Mr. Parrish,

The Division received your signed letter regarding the CEMEX, Inc. Larimer Quarry (Permit No. M-1977-341) on December 10, 2003. Your letter appears to have two concerns, the lack of established vegetation on portions of the reclaimed site and the large rocks that were rolled over the edge and down into the draw.

It is the Division's policy to inspect a site within 30-days of a citizen complaint letter. However, due to the current weather conditions the inspection must be postponed until it is feasible for the Division to assess revegetation success at the site. Therefore, the Division will postpone the inspection until the spring of 2004.

The Division will contact the operator at the end of March, 2003 to determine a suitable date and time to inspect the Larimer Quarry.

If you have any questions, please do not hesitate to contact me at 303-866-4943.

Sincerely,

Erica S. Crosby
Environmental Protection Specialist
