ANNUAL RECLAMATION REPORT

MINED LAND RECLAMATION
Colo. Dept. of Natural Resources

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 34-32-112 of House Bill No. 1065. This report follows the outlined requirements found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 2.4 covering annual reports.

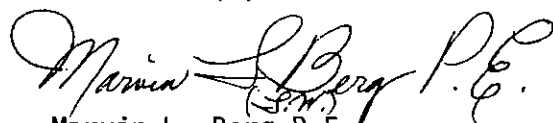

The Permit No. 77341 for the Larimer County Quarry was issued on 6-24-78. I will show the areas reclaimed and the new areas opened up in the 1979-80 reporting period.

The areas outlined in red are mining, stripping, and backfilling areas which are considered major disturbances. The areas outlined in green are the areas that have been reclaimed.

3.67 acres in (H) were opened up in the reporting period 6-79 to 6-80. 2.3 acres in (E) and 1.97 acres in (S) have been backfilled and final graded. These acres will be seeded in the fall of 1980. These acres are considered moderate disturbance at this time. All total, there are 20.19 acres under major disturbance and 4.27 acres under moderate disturbance.

No reclamation took place in this reporting period. None of the reclaimed areas have been released from bond as of this date.

Plans for reporting period 6-80 to 6-81 include areas (T) and (I) to be opened for mining. This will be approximately 5 acres. Area (E) will be backfilled and seeded. Area (S) will be seeded.
