Re: Annual Reports for Lyons Quarry, Larimer County Quarry, and Lyons
Silica Quarry, Permits No. 77-208, No. 77-341, and No. 77-361,
Respectively

Dear Mr. Berg:

The Division has reviewed the three above referenced annual reports that were received by this office on July 11, 1983. The annual report submitted for the Lyons Silica Quarry complies with the rules and regulations for a Limited Impact Operation Permit. However, the annual reports for the other two permits, Lyons Quarry and Larimer County Quarry, do not completely address the requirements for the Regular Operations Permit.

To be in compliance with Rule 2.41 of the Rules and Regulation for Permit No. 77-208 and No. 77-341 please submit the following items in a timely manner.

1. A map to a scale of not less than 100' to the inch and not more than 660' to the inch correlated with the annual report.
2. The type and approximate quantity of fertilizers used and location of use (for Permit No. 77-208).

Please call if you have any questions.

Sincerely,

Peter V. O'Connor
Reclamation Specialist
