RECLAMATION ANNUAL REPORT

LYONS QUARRY

LYONS, COLORADO

PERMIT NO. 77208

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 34-32-112 of House Bill No. 1065. This report follows the outlined requirements found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 2.4, covering annual reports. The permit for the Lyons Quarry was issued on 6-4-78.

This report shows the areas reclaimed and the new areas opened up in the 1986-87 reporting period. The areas outlined in red are the mining and stripping areas which are considered major disturbance. The areas outlined in blue represent stockpile and waste dump areas. The areas outlined in green are the areas that have been reclaimed. The cross-hatched areas are areas where new work was performed during this reporting period.

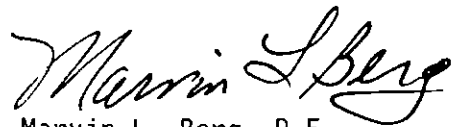

The mining and stripping areas which are considered major disturbance include: (A) 75.8 acres in the east portion of the mine opened prior to 1973; (B) 2.3 acres opened in 1977; (C) 7.4 acres in the northern portion of the mine opened in 1976; (F) 7.2 acres opened in 1977; (G) 3.2 acres opened in 1978; (AA) 8.2 acres opened in 1979; (BB) 11.0 acres opened in 1980; (CC) 17.6 acres opened in 1980; (EE) 5.9 acres opened in 1982; and (FF) 23.0 acres opened in 1983; (KK) 7.2 acres opened in 1985; (LL) 10.5 acres opened in 1985; (NN) 1.0 acre opened in 1985; (OO) 1.0 acres opened in 1985. All total, there are 181.3 acres under major disturbance in the mining area.

The waste dump and stockpile areas include: (I) 4.6 acres which is a raw material holding area; (J) 2.0 acres and (JJ) 5.4 acres which are also raw material holding areas; (O) 15.4 acres opened prior to 1973 for raw material stockpile; (DD) 8.8 acres opened in 1980 for over-burden stockpile; (L) 18.0 acres converted from mining to waste rock dump in 1984; (D) 29.2 acres converted from mining to waste rock dump in 1984; (H) 1.7 acres converted from mining to waste rock dump; (MM) 10.5 acres converted from mining to waste rock dump in 1985; and (E) 14.9 acres converted from mining to waste rock dump in 1986. All total, there are 110.5 acres designated as stockpile and waste disposal areas which are all considered major disturbance.

No areas were reclaimed for this report period. The Government ditch relocation project was completed and reclamation alongside is in progress. All total, there are 156.9 acres that have been reclaimed.

All areas are experiencing excellent growth with haying being done in areas (W) and (X). Grazing is being done in areas (X), (P), and parts of (V) and (K).

Plans for reporting period 6-87 to 6-88 include reclamation along the relocated Government ditch. Mining will take place in areas (A), (F), and (FF). Waste will be deposited in a new area to be opened in the south end of Pit F. Reclamation efforts will take place in areas (CC), (DD), (NN), (OO), and (L).

RECLAMATION ANNUAL REPORT

LARIMER COUNTY QUARRY

LYONS, COLORADO

PERMIT NO. 77341

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 34-32-112 of House Bill 1065. This report follows the outlined requirement found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 2.4, covering annual reports. The Permit No. 77341 for Larimer County Quarry was issued 6-4-78.

This report will show the areas reclaimed and the new areas opened up in the 1986-87 reporting period. The areas outlined in red are mining, stripping, and backfilling areas which are considered major disturbances. The areas outlined in green are the areas that have been reclaimed. The areas that are cross-hatched are areas where new work was accomplished during this reporting period.

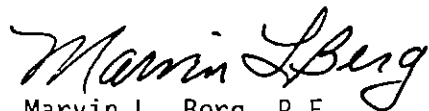

The mining and stripping areas which are considered major disturbances include: areas (H), (I), (J), (K) and (V) which were opened in the years indicated on the map; and areas (W) 5.53 acres, which was opened in the reporting period 6-86 to 6-87. All total, there are 23.50 acres under major disturbance in the mining area.

2.35 acres in (G) and 6.98 acres in (K) were reclaimed in the 1986-87 reporting period. To date, 46.95 acres have been reclaimed. Reclamation was accomplished using a dryland pasture mix which includes:

39% winter rye
13% range alfalfa
9% smooth broom
8% intermediate wheat grass
7% slender wheat grass
8% Nordan crested wheat grass
6% Russian wild rye
10% Jose tall wheat grass

These areas were seeded at a rate of approximately 50 pounds per acre and fertilized at the time of planting with industrial ammonium nitrate at a rate of approximately 200 pounds per acre. All areas are experiencing excellent growth. No reclaimed areas have been released from bond to date.

Plans for reporting period 6-87 to 6-88 include opening 3-5 acres in Pit B and the Parrish quarry. The Parrish quarry ammendment has been submitted and should be approved by 1988. Approximately 8-10 acres in areas (H), (I), (J) and (K) will be contoured and seeded.

RECLAMATION REPORT

SILICA QUARRY

LYONS, COLORADO

PERMIT NO. 77361

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 34-32-112 of House Bill No. 1065. This report follows the outlined requirements found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 3.4, covering the "Notice of Intent to Continue" for the limited impact operation.

The permit for the Silica Quarry located at Lyons, Colorado was issued on 6-4-78. In our reclamation and mining plan submitted September 1, 1977, it was stated that 6.5 acres in the NE 1/4, SW 1/4, Section 20 T3N R70W of the 6th P.M. had been affected of which 4.1 acres are in the quarry and 2.4 acres are used for stockpile and crusher area. As of this date, the affected area is the same with no new areas opened up. No land was reclaimed during the period 6-86 to 6-87. There will be no newly affected land in 1987 as mining will take place in the area already affected.
