Dear Sir:

Due to a mixup on the anniversary dates of our mining permits, the annual fees were submitted under the old payment schedule. In order to rectify this shortcoming, I am submitting the difference between the old and new schedule, ie. \$80 for permit No. M-77-208, \$80 for permit No. M-77-341, and \$70 for permit No. M-77-361. One check for \$230 will be submitted to cover all permit fees.

I hope this will straighten out this little problem. If you have any further questions, please contact me.

Sincerely,

SOUTHWESTERN PORTLAND CEMENT

Marvin L. Berg

RECLAMATION ANNUAL REPORT

LARIMER COUNTY QUARRY

LYONS, COLORADO

PERMIT NO. 77341

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 34-32-112 of House Bill 1065. This report follows the outlined requirements found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 2.4, covering annual reports. The Permit No. 77341 for Larimer County Quarry was issued 6-4-78 and amended on 9-25-87 to include the Parrish Quarry.

This report will show the areas reclaimed and the new areas opened up in the 1990-91 reporting period. The areas outlined in red are mining, stripping, and back filling areas which are considered major disturbances. The areas outlined in green are the areas that have been reclaimed. The areas that are cross-hatched are areas where new work was accomplished during the reporting period.

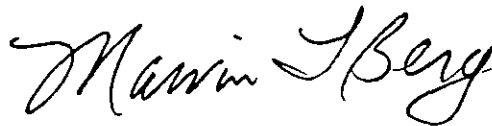

The mining and stripping areas which are considered major disturbances include: areas (BB) 3.1 acres and (PP) 0.8 acres which were opened in 1987, (CC) 2.0 acres opened in 1989, (DD) 3.3 acres opened in 1990, (EE) 1.4 acres opened in 1990, (FF) 2.0 acres opened in 1990. In A pit 0.93 acres remain disturbed as a construction camp. All total, there are 13.53 acres under major disturbance in the mining area.

In area (PP) 6.0 acres have been reclaimed. Contouring and placing of topsoil is complete. Seeding will take place in the fall of next spring with a dry land pasture mix which includes:

- 39% winter rye
- 13% ranger alfalfa
- 9% smooth broom
- 8% intermediate wheat grass
- 7% slender wheat grass
- 8% Nordan crested wheat grass
- 6% Russian wild rice
- 10% Jose tall wheat grass

To date 78.85 acres have been reclaimed. All areas are experiencing excellent growth. No reclaimed areas have been released from bond to date.

Plans for reporting period 6-91 to 6-92 include opening 3 acres just north of the Parrish Quarry and 2 acres near A pit. In areas CC and PP 2 to 3 acres will be reclaimed.
