**RECLAMATION ANNUAL REPORT
LARIMER COUNTY PARRISH QUARRY
LYONS, COLORADO
PERMIT NO. M-77-341
1994-1995**

The purpose of this report is to comply with the Mined Land Reclamation Act of 1976, Statute 32-32-112 of House Bill 1065. This report follows the outlined requirements found in the Rules and Regulations of the Colorado Mined Land Reclamation Board, Section 2.4, covering annual reports. The Permit No. M-77-341 for Larimer County Quarry was issued June 4, 1978 and amended on September 25, 1987 to include the Parrish Quarry.

This report will show the areas reclaimed and the new areas opened up in the 1994-1995 reporting period. The area outlined in red includes mining, stripping, and backfilling areas which are considered major disturbances. The areas outlined in green have been reclaimed or are partially reclaimed. The map only includes areas where new work was accomplished during the reporting period.

The 4.5 acres in section B1 is in the mining and stripping area and is considered a major disturbance.

There are three areas that were partially reclaimed during the reporting period: 3.3 acres in section B2; 8.5 acres in section A3 and 19.1 acres in section A7. Sections A3 and A7 have been graded and will be seeded in the spring and fall, respectively. A total of 30.9 acres were graded for reclamation during the reporting period.

There is one area where reclamation is complete: section B3 (6.2 acres). This area was seeded with a dry land pasture mix which includes:

- 39% winter rye
- 13% ranger alfalfa
- 9% smooth brome
- 8% intermediate wheat grass
- 7% slender wheat grass
- 8% Nordan crested wheat grass
- 6% Russian wild rice
- 10% Jose tall wheat grass

This area is experiencing excellent growth. It has not been relaeased from bond to date.

Plans for reporting period June, 1995 to June, 1996 include: completion of the reclamation in sections B2, A3 and A7; and continuation of mining in section B1.
