RE: Southwestern Portland Cement Co.
Amendment to Larimer Co. Quarry
Mining & Reclamation Plan, Permit No. 77341
(Formerly listed under the Martin Marietta Co.)

Dear Mr. McArdle:

Due to further planning, Southwestern Portland Cement Larimer Co. Quarry finds it necessary to make an amendment to the approved mining plan. The revision affects 12.80 acres adjoining the southern boundary of our property. Since this is just an extension of Pit "B" in the original mining plan, I feel this can be accomplished by an amendment rather than submitting a separate mining plan. This amendment represents an opportunity to complete mining of the entire outcrop and unifying the reclamation to a more natural state. All agreements with property owners have been secured.

Your attention to this revision at the earliest possible time will be greatly appreciated. Work in this area will commence as soon as approval is made.

Very truly yours,

SOUTHWESTERN PORTLAND CEMENT
