Re: Southwestern Cement Enterprises, Inc., Silica Quarry, Permit
No. M-77-361; Parrish Quarry, Permit No. M-77-341; Lyons
Quarry, Permit No. M-77-208, Succession of Operators
Application Package

Dear Ms. Morrison:

Please find enclosed three Transfer of Mineral Reclamation Permit and Succession of Operators Application Packages ("SO" application forms) and three Performance Warranty forms for your use in having the above listed permits transferred to Southdown, Inc. To transfer each site to Southdown, Inc. you will need to submit an SO application form, a new Performance Warranty and a new reclamation bond for Southdown, Inc. On page 1 of the actual SO application if you choose Option A the Division will not transfer the permit to Southdown, Inc. for approximately 60 to allow us to recalculate the reclamation bond requirement for each site, if you choose Option B the Division will transfer the permits within 30 days and then calculate the bonds after the permits are Southdown, Inc.'s responsibility.

If you have any questions regarding the transfer process, please do not hesitate to call.

Sincerely,

Barbara D. Chiappone

Barbara D. Chiappone
Minerals Division Program Assistant
